Summary

Hello! I'm a versatile front-end web developer with a talent for turning complex problems into beautiful, user-friendly digital experiences. In addition to web development, I dabble in video creation, video editing and image editing, ensuring a cohesive and visually appealing presence. My passion for innovation drives me to push the boundaries of what's possible, whether it's crafting dynamic interfaces or creating engaging multimedia content. Let's bring creativity, precision and a little bit of magic to your vision.

Experience

Atologist Infotech – Web Developer

Surat, India
02/2023 – Current

- Designed and implemented interactive user interfaces for websites and applications.
- Resolved cross-browser compatibility issues for consistent look across different platforms.
- Collaborated with back-end developers to integrate user interface elements into applications.
- Developed and maintained user-facing webpages using HTML, CSS, JavaScript and jQuery.
- Integrated front end code with server-side code to implement dynamic pages.
- Developed reusable components that can be used in future projects with minimal effort.
- Created custom responsive designs that optimized the website layout for various devices.
- Integrated third-party APIs into existing websites and applications.

Shree Saraswati School – Computer Teacher

Surat, India
2022 – 2023

- Assisted students with troubleshooting technical issues related to hardware or software usage.
- Developed lectures addressing variety of computer science topics to engage and educate students.
- Instructed students in the development of web-based applications using HTML, CSS, JavaScript, and PHP.
